Number of hours worked since last update: 9

Number of hours worked on the project thus far: 99

Total number of hours anticipated for completion: 130

Accomplishments:

I added an "end" button to my training dataset, ML model. This is done to complete one of my stretch requirements. I also did some more dataset training.

Challenges:

- The AI still behaves in a very basic way. I will have to keep training the dataset in order to make it "smarter".

Plans / Goals for next week:

1. More dataset training.

Accountability plan: (What is your plan to keep yourself honest and follow through with the goals that you have outlined?)

I will have my roommate make sure that I work on this at least 2 hours per day when I am not busy working on my other classes
